## Position: Postdoctoral Research Fellow in Food Processing/Engineering

A Postdoctoral Research Fellow position is available at the Food Science and Technology Programme, c/o Department of Chemistry, National University of Singapore (NUS). The research project is on Food Processing/Engineering.

Applicants should possess a Ph.D. degree in Food Science/Processing/Engineering or closely related field and a strong publication record. Experience in food engineering will be an advantage. The candidate is expected to supervise undergraduate and postgraduate students in carrying out research projects, and to write professional research papers for publication and progress reports. Good verbal and written communication skills in English and independent research ability are expected.

The position is on a yearly contract renewable for up to 2-3 years. Starting date is as earliest as Mar 2017 but negotiable. Salary and benefits will be commensurable to qualifications and experience. Interested individuals should send a curriculum vitae, copies of educational transcripts/certificates (unofficial version is acceptable for application) and the contact information of three people who could provide letters of reference to:
